The workout app that actually *coaches* you.

Every other app records your sets and goes silent.
Kova reads your full training history and tells you
exactly what to do next — like a PT who never
misses a session.

WORKOUT TRACKING

Log in 5 seconds. Get coached for the whole session.

The fastest logging experience on any gym app — built to get out of your way between sets. Type it or say it out loud.

After every session, Kova tells you what changed in your training and what to do next.

-  Smart autofill from your full history
-  Voice logging — just speak the set
-  Rest timer built in, no extra taps
-  Progression suggestion after every session

AI COACHING

A coach who's read every session you've ever logged.

Most fitness chatbots give you the same answer they'd give anyone. Kova has read your exact lifts, your recent trend, your weak points.

Ask why you're plateauing. Ask if you need a deload. Get a specific, data-driven answer every time.

-  Every answer grounded in your real data
-  Spots patterns you'd never catch yourself
-  Tells you exactly what to change and why
-  No generic tips. No guessing.

Kova Coach

Reading your training data

Why is my bench stuck? Been 3 weeks.

Your volume dropped 18% across 3 weeks. Last 4 sessions averaged `3×4 @ 80kg` — down from `4×5 @ 82.5kg`. You're under-recovering, not stuck.

What should I do next session?

Go back to `4×5 @ 80kg`. Full rest between sets. One clean reset session, then push. You'll be back to 85kg within 2 weeks.
